

Dear Customer

SCHUMA Conveying Systems. Finding custom-made solutions is our strong point.

With great attention to details, we produce the most modern products on schedule. We will also be able to fulfill your requirements through our competent advisory services and thorough, well-designed developments.

We produce efficient operating, custom-made units, which optimize production processes and have prepared ourselves for the most varied demands in regards to materials and manufacturing.

Our conveyor systems are optimally adapted to the space available at each location - individual solutions are worked out.
