2022 It's all WITTMANN.

Whether it's ultra-modern injection molding machines and process technology, or high-tech automation and auxiliary equipment – it's all WITTMANN.

Visit our exhibition stand at K 2022, from 19 to 26 October, and discover our latest technologies. We have prepared for you some exciting answers to the K-fair's big topics such as circular economy, climate protection and digitalisation.

These include, among other things, the use of alternative energy concepts, processing of innovative natural and recycled materials as well as processes for a significant reduction of material input, individualization of products and completely new operating concepts for machines and equipment, to name just a few examples. Let us surprise you!

See also a selection of the news on our website www.wibatech.dk

We wish you all an interesting and inspiring visit to K 2022 and look forward to seeing you there. Our entire team looks forward to helping you during your visit.

It can be busy, so it would be an advantage to make an appointment in advance. Contact us either by email or phone (**country code +45**): Michael Juul-Andersen (2270 1129) ♦ Daniel Skaarup (3166 3169) ♦ Jørgen Nielsen (4042 2383) Thomas B. Jensen (2721 3152) ♦ Bjarni Due Zachariasen (9387 0026 ♦ Nick Hinsch (2577 7999) ♦ Jesper Skaarup (2032 3334)
